To whom it may concern,

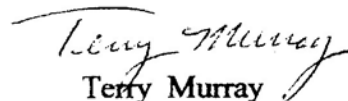

After more than eleven years of extremely successful advertising with our tiny little flyer which has generated millions of dollars in sales each and every year, the tiny little flyer that has caused you folks so much grief and turmoil. We have decided to focus our efforts toward another area of landscaping. Therefore, as of Tuesday November 28th 2006 the distribution of our flyer will come to a complete end, as it will no longer be needed. This decision does not come as a result of your narrow minded actions or opinions.

PLEASE BE ADVISED, that should you elect to attempt to prosecute me again for the distribution of that flyer, I will most assuredly be responding with counter legal action of my own, against each and every one of you, whereby I will be seeking compensation for all legal and filing fees I may incur.

On Tuesday November 28th 2006 the employee who has distributed this flyer for us for the past many years will be relieved of his employment with our company completely. I am concerned that he may choose to pass flyers to those areas which we have listed as non solicitation areas, out of spite. He is extremely familiar with, and even has a list of all such areas. You will not hold me responsible for something which I am not the cause of again. Such as you did in the past.

On a final note, I do hope that each one of you has found a way to deal with the tremendous grief and turmoil that this tiny little piece of paper has caused you over the years. I'm not sure however, just how you will cope with all those flyers that you still receive month after month, from all of those fly by night companies who do not list their addresses on their advertisements, and who are not licensed according to Arizona State Law such as we are. Life sure is tough on narrow minded, pathetic individuals such as you folks, isn't it? Ever consider just how much damage the vehicles you all drive are doing to the environment? That's okay though, isn't it? So long as it benefits you, you're all very willing to stick your heads in the sand (or somewhere else), and look past your own disgraceful hypocrisy. Cry over a tiny little flyer, but spit pollution by the tons into the air every single day. Silly little guys!!!

Disrespectfully Yours,

Terry Murray
